

Parainfluenza Virus Antibody

Anti-Parainfluenza Virus

Catalog No.:	35-470
Host:	Mouse
Clonality:	Monoclonal
Isotype:	Mouse IgG2a
Conjugate:	none
Immunogen:	n/a
Specificity:	Specific for the fusion protein of Para 1.
Cross-Reactivity:	n/a
Purification:	Parainfluenza Virus antibody is purified from ascites fluid or culture medium by protein A chromatography or sequential differential precipitations.
Tested Applications:	E, IF
Buffer:	Parainfluenza Virus antibody is in a phosphate saline buffer (0.01M, pH 7.2) containing 0.1% sodium azide preservative. No stabilizing proteins have been added.
Storage:	Parainfluenza Virus antibody can be stored at -20°C, stable for one year.

Note: During shipment, small volumes of the antibody will occasionally become entrapped in the seal of the product vial. For products with volumes of 200 μ L or less, we recommend gently tapping the vial on a hard surface or briefly centrifuging the vial in a tabletop centrifuge to dislodge any liquid in the container's cap. Optimal dilutions and concentrations should be determined by the end user. The information provided is a guideline for product use.
This product is for research use only.
