

Rb Antibody

Anti-Retinoblastoma (Rb) phosphoserine 249/phosphothreonine 252, Retinoblastoma, phospho-Retinoblastoma, phospho-Rb, pS249/pT252

Catalog No.: 47-103

Host: Rabbit

Clonality: Polyclonal

Isotype: n/a

Immunogen: Phosphopeptide region of human Rb containing serine 249 and threonine 252.

Purification: n/a

Species Reactivity: Human

Tested Applications: WB

Buffer: n/a

Reactivity: This antibody reacts with human Rb protein phosphorylated at serine 249 and threonine 252. Mouse and rat (100% conserved) have not been tested.

Storage: Rb antibody can be stored at 4°C, stable for one year. As with all antibodies care should be taken to avoid repeated freeze thaw cycles. Antibodies should not be exposed to prolonged high temperatures.

Note: During shipment, small volumes of the antibody will occasionally become entrapped in the seal of the product vial. For products with volumes of 200 µL or less, we recommend gently tapping the vial on a hard surface or briefly centrifuging the vial in a tabletop centrifuge to dislodge any liquid in the container's cap. Optimal dilutions/concentrations should be determined by the end user. The information provided is a guideline for product use. **This product is for research use only.**
