

BACH1 Antibody

Anti-BACH1

Catalog No.: 47-172

Host: Rabbit

Clonality: Polyclonal

Isotype: n/a

Immunogen: Peptide corresponding to aa 1233-1249 of the human BACH1 protein.

Purification: Affinity-purified

Species Reactivity: Human

Tested Applications: WB

Buffer: PBS containing 0.02% sodium azide.

Reactivity: This antibody recognizes human BACH1 protein, a member of the DEAH helicase family. BACH1 interacts with BRCA1, and mutations in BACH1 interfere with normal double-strand DNA break repair

Storage: BACH1 antibody can be stored at 4°C, stable for one year. As with all antibodies care should be taken to avoid repeated freeze thaw cycles. Antibodies should not be exposed to prolonged high temperatures.

Note: During shipment, small volumes of the antibody will occasionally become entrapped in the seal of the product vial. For products with volumes of 200 µL or less, we recommend gently tapping the vial on a hard surface or briefly centrifuging the vial in a tabletop centrifuge to dislodge any liquid in the container's cap. Optimal dilutions/concentrations should be determined by the end user. The information provided is a guideline for product use. **This product is for research use only.**
