

Basigin Monoclonal Antibody

Basigin

CATALOG NO.: 49-195

HOST: Mouse

CLONALITY: Monoclonal Clone HIM6.

INFORMATION:

Basigin (BSG) Mouse anti-Human Monoclonal (HIM6) Antibody

CONJUGATE: none

PHOSPHO-SPECIFIC: no

PURIFICATION: Immunoaffinity Chromatography

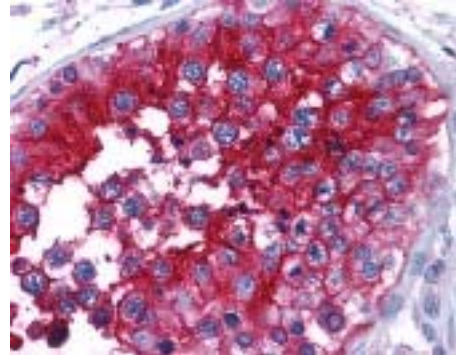

ISOTYPE: IgG1

IMMUNOGEN: Human

SPECIES REACTIVITY: H

TESTED APPLICATION(S): WB, IHC, FACS

APPLICATION DETAILS: Basigin antibody can be used for detection of Basigin by WB, FACS (0.5 µg/IE6 cells), IHC-paraffin (10 µg/ml), IHC-frozen.

Immunohistochemistry staining of Basigin in testis (formalin-fixed paraffin-embedded) using Basigin monoclonal antibody.

BUFFER: Antibody is supplied in PBS, pH 7.2, 0.09% sodium azide.

FORMULATION: Weight: 50 µg Concentration: 0.5 mg/ml

STORAGE: Basigin monoclonal antibody can be stored undiluted at 4°C.

USER NOTES:

When working with antibodies, optimal dilutions and concentrations should be determined by the end user for each application. The information is provided as a guideline only. As with all ProSci antibodies, this antibody is **for research use only**.
