

HeLa Cell Slide

Cat. No.: 17-001

Ψ Specifications

SPECIES:	Human
TESTED APPLICATIONS:	ICC
APPLICATIONS:	Hela cell slide is provided for immunocytochemical analysis of protein and protein-protein interaction. Before applying immunocytochemistry, 0.1% Triton X-100 pretreatment for 1 minute at room temperature is highly suggested. Optimal conditions should be determined by the end user.

STORAGE CONDITIONS: Hela cell slides can be stored for up to 6 months at 4° C under desiccate conditions.

Ψ Background and References

BACKGROUND:	HeLa S3 (cervix; adenocarcinoma)
