

MCF7 Cell Slide

Cat. No.: 17-012

Ψ Specifications

SPECIES:	Human
TESTED APPLICATIONS:	ICC
APPLICATIONS:	MCF7 cell slide is provided for immunocytochemical analysis of protein and protein-protein interaction. Before applying immunocytochemistry, 0.1% Triton X-100 pretreatment for 1 minute at room temperature is highly suggested. Optimal conditions should be determined by the end user.

STORAGE CONDITIONS: MCF7 cell slide can be stored for up to 6 months at 4° C under desiccated conditions.

Ψ Background and References

BACKGROUND:	MCF7 (breast; epithelial; pleural effusion adenocarcinoma)
